## SUMMARY

---

B.Pharm graduate with strong foundational knowledge in Pharmacovigilance, including ICSR case processing, adverse drug reaction (ADR) reporting, and MedDRA coding. Completed certified training via Coursera and Udemy with hands-on exposure to case triage, seriousness assessment, and safety data documentation. Detail-oriented with strong analytical and communication skills. Eager to begin a career in Pharmacovigilance with a strong commitment to patient safety and regulatory compliance.

---

### Pharmacovigilance Training :

- Processed simulated Individual Case Safety Reports (ICSRs) based on real-world scenarios
- Performed case triage and identified valid cases using minimum criteria (Patient, Reporter, Drug, Event)
- Conducted seriousness assessment (Death, Hospitalization, Life-threatening, Disability, etc.)
- Applied MedDRA coding at LLT and PT levels Performed basic causality assessment and event documentation
- Ensured completeness and compliance with pharmacovigilance guidelines
- Maintained structured case documentation aligned with PV workflows.

## PROJECT

---

### Healthcare Data Analysis

- Analysed healthcare dataset to identify trends in medicine sales and demand
- Cleaned and processed raw data for accurate analysis
- Built Power BI dashboard to track top-selling medicines and revenue patterns
- Identified high-demand regions and seasonal trends
- Provided insights to improve inventory planning and reduce stock shortages.

### Adventure Works Sales Analysis Dashboard

- Cleaned and structured raw sales data.
- Designed KPI dashboard (Revenue, Profit, Monthly Growth).
- Performed SQL-based analysis for sales trends.
- Created relationships and data models in Power BI.
- Generated business insights for decision-making.

## EDUCATION

---

### B Pharm

MES College of Pharmacy • Sonai • 2022-25 • 7.1

### Diploma

Mula Rular Institute of Pharmacy • Sonai • 2018-20 • 89.90

## CERTIFICATIONS

---

### Data Analysis Certification

### Indian Pharmaceutical Congress (IPC – 73rd)

### Pharmacovigilance & Drug Safety

### Introduction to Pharmacovigilance

## SKILLS

---

Pharmacovigilance Skills: Adverse Drug Reaction (ADR) Reporting, ICSR Case Processing (End-to-End Workflow – Basic Knowledge), MedDRA Coding (LLT, PT – Practical Knowledge)

Tools & Technical Skills: MS Excel (Data Handling, Filtering, Basic Functions), SQL (Basic Queries – SELECT, JOIN), Power BI (Dashboard Creation & Data Visualization), Veeva Vault (Awareness of Safety Database Systems)
